VOL. 14, NUMBER 27 MONESSEN, PA., THURSDAY, JULY 15, 1915 SIX CENTS THE WEEK

Seagrave Auto Fire Truck Purchased By Council

Council met in a lengthy and heated session last evening with all members present with the exception of J. W. Cartwright. A number of important matters came up for final action and it was after 11 o'clock before an adjournment was taken.

J. S. Martz handed in his resignation as patrol driver and Desk Sargeant D. D. Jenkins was appointed to fill the vacancy. W. G. Barrow will act as Desk Seargant in the place of Mr. Jenkins. The appointment of W. D. Forester and W. H. Woods as members of the police force by Burgess Dunlap was confirmed by council.

The tax collector's report was accepted. The amendment to the huckster's license, raising the fee from $75 to $200 was the topic for a lengthy discussion and finally tabled. The report of the park committee was carried over.

The purchase of a fire truck for the volunteer fire department was the next matter taken up and the body finally agreed on the Seagrave truck, only two members voting against it. The truck will cost $5,900.

The laying of sidewalks in the borough was next and the borough solicitor was instructed to prepare a legal form to serve on residents who have failed to lay sidewalks on improved streets. The borough solicitor was also instructed to serve notice on the estate of George Irons to put the closets in Steel Mill row in a sanitary condition. Council then adjourned.

Old Landmark Is Being Torn Down

Another old landmark is being removed. The Hazlett property on Donner avenue, recently purchased by Dr. Harry F. Craig, the druggist, is being torn down and in its place will be erected a four story modern brick which will be occupied as the Craig drug store, with flats on the upper stories and a barber shop in the basement. This will be the second four story brick to be built in the town and will add considerably to Donner avenue in the vicinity of Fifth street. The building is supposed to be ready for occupancy by late fall.

Remembers History Of Long Ago

Jos. W. Boor, octogenarian, who has been visiting here at the home of his daughter, Mrs. G. C. Diehl, left today for his home in Altoona. Mr. Boor is eighty-four years of age, and is enjoying the best of health. Indications at the present time point to the fact that Mr. Boor will be here many more years, although he says he is ready to answer the final summons and to join his wife who preceeded him to the grave a few months ago.

Mr. Boor can relate much of the early history of the Keystone state, as he and other members of the Boor family were among the early settlers. Sixty one years ago he traveled the National pike, now the Lincoln highway from Bedford county, this state, to Jefferson county, Iowa, where a party took up a large acreage and opened up a new field of agriculture. At that time railroads were an unknown quantity and the party traveled by horse and wagon, leaving Bedford on the 12th day of September, arriving at their destination on October 14th, being a month and two days on the road. The party passed through Robstown, now West Newton when that town was but a small village with only a few houses. Land throughout the best sections of the western state was selling at from seventy five cents to $1.50 an acre, while in this state it was very high in proportion. Many of the men who were in the party remained and became wealthy, but Mr. Boor's health failed and he returned home in about four years. His history of the early days is entertaining to anyone interested in happenings of the country during the sixties.

Charleroi Disorderly House Is Raided

Chief of Police Albright of Charleroi headed a raid early yesterday morning on an alleged disorderly house that was said to be operating between Eighth and Ninth streets on Crest avenue. The result of the raid was that three women and two men were arrested. Mrs. Mayme Bell was said to be the housekeeper and put up a $10 forfeit for her appearance. Mrs. Ada Sadle and Goldie Blackburn, alleged inmates, each put up $9 and Edward Smith and Leroy Hester, machinists of Donora, the same amount as forfeits. They failed to appear for a hearing and the borough treasury was enriched financially to the extent of $46.

Pugilists Train Here For Match

Jack Mier, the well known young athlete, has taken under his management three of the best known fighters in the valley, Battling Shultz of Pittsburgh, Eddie Nevil of Donora and Heck Pillet of this city. The three figters are now training here and will be pitted against well known pugilists of the Pittsburgh district in a boxing match to be staged at the Charleroi rink on Saturday, July 24.

Battling Shultz, who Mier claims is the coming champion in his class will meet Kid Levine of Pittsburgh in the main bout while Nevil will try conclusions with Kid Levoe of New Kensington in the semi-final. Heck Pillett, the local fighter will meet young Todd of Donora and in the opening bout, Jones of this city will try conclusions with Bennett of Brownsville.

Jack Mier has opened a gymnasium on Schoonmaker avenue and with a trained corps of assistants is putting the boys through some strenuous training for the bout. He is securing engagements for his fighters in quite a number of towns in the Pittsburgh district and from their past records, they will no doubt give a good account of themselves.

School Board Met Last Night

The school board held a meeting last night and accepted several resignations of teachers and elected successors. The Misses Pearl Chalfant and Mary Staley resigned and the following were elected: Madge Donaldson, Florence Fisher, Wenona Coatsworth and Sarah Meaney. Miss Lou Hartman of McKeesport, resigned as instructor in the Domestic Science department and Miss Florence Lytle of Library was elected the position.

Band Concert Tomorrow Evening

The Louhi band will give a concert at the band stand in the Sixth street park tomorrow evening beginning promptly at 8 o'clock. A good program has been arranged for the occasion and it is expected that all members of this famous musical organization will be present.

—Tomorrow at the Olympic—"The Marble Heart" featuring King Baggot, Jane Fearley and Ned Reardon.1t

Water Barons Are On The Run In Greensburg

Water companies are juggling. They are interested in high finance. They are bond holders who look not to the interest of a community, or the welfare of their customers, but to the amount they can realize. A case that is now being tried is that of the Westmoreland Water company which concern has worked a hardship on the consumers of many towns of this county, and is now before the Public Service commission on a charge of graft. We reproduce a portion of the evidence which is being taken before the commission for the benefit of local people. Big monopolies are speculating in water the same as coal, timber and other things essential to the human welfare that nature so lavishly provided. The special from Pittsburgh says:

"Pittsburgh, Pa., July 15—The Westmoreland Water company owns some 'water' that never went through any of the meters, nor is it in any of the five reservoirs owned by the company. This was brought out at the hearing of the case to determine whether or not the rate charged by the company to its consumers are exorbitant which began at 10 o'clock Tuesday morning before the Public Service commission in the Board of Commerce rooms in the Keenan building.

"One of the many developments of the day was that a bond issue of $450,000 was floated by the Westmoreland Water company of Unity township, when the present owners acquire it. At the same time there was a stock issue of $900,000 and no money was turned into the treasury of the company for the stock. This issue was later reduced to $225,000, more than a half million being lost in the shuffle.

"This testimony was brought out during the cross examination of M. C. Schraff, by Paul Gaither, an attorney representing the people in their fight against the water barons. Mr. Schraff in his direct examination stated that the present plan of the Westmoreland Water company cost $1,670,929.50

"It also developed during the testimony that the Delaware company, a New Jersey corporation, received $450,000 in bonds and $900,000 of common stock of the Westmoreland Water company at Unity township to build the plant. The organizers and directors of the New Jersey corporation it was shown were the same people back of the Westmoreland Water company of Unity township. A contract to build the plant was entered into with the American Pipe Manufacturing company. The expert for the water barons admitted that he signed an agreement of engineers with reference to the cost of building the Unity township plant. Mr. Schraff admitted that the original contract of the Delaware company with the American Pipe Manufacturing company between the years of 1888 and 1894 showed that $309,253,-11 had been expended in construction. The sum of $21.480.28 was later expended, making the grand total of $330,733.40. Right of ways and

(continued on page four)

Speculating on Meters

Did you ever stop to think what a good investment it is for the Tri-Cities water company to force a meter system upon the people of Monessen at the same time making the consumers pay for the measure with which the company measures the water for its own market. It means many thousand dollars glove money.

Let us reason. The estimated census for 1915 according to the Government's report gives Monessen 18,775 people. Suppose then, there is an average of four people in each family. This makes 4,444 families which means that each family must have a water meter. Of course the company won't allow you to buy your meter where you please. You must buy from the company and pay the price the company asks which is $12.00 per meter. You can readily figure that the company has $53,328. After the meters are paid for by the company there is probably left as a net profit from $35,000 to $40,000. The average man can now pretty nearly figure out why the water company is so deathly anxious to install meters. It is a business the company makes of supplying you meters at the company's own price to measure the company's water to you at the company's own price per thousand gallons. The consumer has absolutely nothing to say in the matter.

But we hear the water company putting up the defense that this argument is not good, that the consumer does not have to buy a meter, he can rent it. Yes, he can rent it from the company by paying 17 per cent. interest on the retail price of the meter which is likely 35 or 40 per cent. on the wholesale price of the meters. More graft. It is graft no difference which way you take it. The company wins and you lose just like playing the paddle wheel.

Why is it then, you ask, that the water company can do just as it pleases and there is no redress for the people. Are you convinced that it is time to say something even if there is no relief. Report the robbery even though you can't catch the thief.

Give us the Item

One of the most difficult of the editor's jobs is to get facts about births, marriages and deaths. People seem to think he ought to know these things by intuition. If not that, the birth, marriage or death is of such importance in the immediate family that it is presumed the editor will be informed by some wireless or just grow into the information. Then, when the paper comes out, and no mention is made of the event, the editor is blamed for not running a good newspaper or not getting all the news. Remember there are a good many people in this county. If the editor knew each of them by name, besides their family history and the chief events in the lives of every individual, he wouldn't be an editor. He'd be a demi-god, resting his feet on a cloud and sipping ambrosia instead of inhabiting a broken-down office chair and wondering where the money for the next white paper bill is coming from. The life of the average newspaper man is a gay one. Gathering news is second nature to him, like picking his teeth with the office pen and cussing the office towel. Just the same, there's a limit to his omniscience. Last week, we thought of a million, eight hundred and forty nine thousand three hundred and sixty four things of importance, besides a couple of hundred thousand small items of unworthy mention. And it was a slow week. We're anxious for news for the paper, and it won't put you out much to drop by the office or telephone us what's happening at your house. Then if the item doesn't get in the paper, you have a right to come down and kick the stuffing out of the cat. Otherwise, don't blame us.

Square Dances At Eldora Park

Square dancing will be revived at Eldora park next week, when on Tuesday, a Charleroi club will give their first dance of the kind. Like fashions, it is declared, dancing finally gets around to what is the oldest. Square dancing is one of the older sort of dances, and a sort that those of the older generation know and enjoy. C. Blythe is the head of the committee arranging the square dances for Eldora park. The intention is to hold the dances every Tuesday night.

On Wednesday night of next week a private dance will be given by the Tecelote club of Californoa .Invitations have been issued and the event will be made one of the usual kind held by this popular up-river organization.

On Thursday the Grand United Order of Odd Fellows of the Monongahela valley will hold their annual picnic and outing at the park. A good program of events has been arranged for this event.

On Friday the Sunday schools of the First Presbyterian church of Charleroi will hold a picnic at the park. The usual program will be carried out. Various contests will be held.

FRENCH COUNT IS AN-GERED BY HIS ARREST

New Orleans, La., July 15—Count Rene De Silz, a Parisian nobleman, and a scion of one of the oldest French families, has brought suit against a New Orleans hotel owner because he was haled into court and tried on the charge of trying to beat his board bill. The Count was rescued from a period of imprisonment in the bastile only by the decision of the higher court. The Count is vindicated but he is angry and seeks satisfaction in the sum of $15,000. The hotel owner had him arrested during a stringency in the Count's financial condition. The Parisian borrowed a hundred dollars from the hotel, and was unable to make good on the dot when his host demanded it, neither was he able to pay his board bill on sudden demand. He proved to the satisfaction of the higher court that his wardrobe and valuables were more than sufficient to satisfy his debts.

ST. SWITHINS DAY—GOVERNS WEATHER FOR 40 DAYS

Today, July 15th, is St. Swithin's Day, on which the superstitious in England look for the weather indications for the next forty days. The venerable St. Swithin, who was bishop of Winchester, requested that he be buried under the cathedral eves. After his remains had lain there for a century, pious indignation demanded that they be removed to a higher place of honor. On the appointed day of the removal, a heavy rain burst on the ceremonies, and the monks interpreted this as a warning. The rain continued for forty days, and the following rhyme conveys the superstition:

St. Swithin's Day, if thou dost raine
For fortie dayes it will remaine.
St. Swithins Day, if thou be clere
For fortie days 'twill raine na mair.

HANGS FOR KILLING FELLOW CONVICT TOMORROW

Joyliet, Ill., July 15—Frank Repetto, who killed a fellow convict, must go to the gallows tomorrow morning. Governor Dunne has refused to commute the sentence, because of the nature of his deed and the failure of the legislature to abolish capital punishment. He gave the man a chance for life by repeated reprieves until the Legislature had had a chance to pass on the merits of the movement to do away with capital punishment. Nicoli Gabrilovitch, who was to hang today at Edwardsville and John Kinzie, who was also sentenced to hang at Morris, have been granted commutations of sentence to life imprisonment.

PORTLAND, OREGON GREETS THE LIBERTY BELL

Portland, Ore., July 15—A big celebration was begun here early this morning in honor of the Liberty Bell, which is making a stop over on its way to San Francisco. The sacred relic will be viewed by many thousands and school children have come from all sections to see the famous relic of Independence. Mayor Albee and Governor Withcombe will deliver addresses during the day, and the Pennsylvanians escorting the bell will be entertained elaborately.

Whiskey And Brandy Is Not Medicine

Whiskey and brandy cannot be taken as "medicine" after January 1, 1916, and as a result every druggist in the United States who proposes to sell either intoxicant after that date will be forced to take out a license as a saloonkeeper, paying the highest retailers' tax and putting his place under all local and state regulations. Dr. Harvey W. Wiley declared this fact.

This situation is brought about by the decision of the United States pharmacopeia to drop both whiskey and brandy from the publication. The elimination of these intoxicants from the book has the effect of withdrawing recognization of them as medicines. The pharmacopeia is the official publication for the country and nothing which is not listed therein can be sold as medicine.

Get up and go. That's the way to win. Can't go very far in a business way unless you advertise, and when you advertise choose a live medium. No whiskers in daily news, so why not plant an ad among live news.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Chautauqua Institution—World Famous For Forty Years

Popular Resort Combines Fishing and Philosophy, Recreation and Religion, Outdoor Sports and Inspiration.

ALL ROUND PROGRAM FOR 20,000 "FRIENDLY FOLKS."

For over forty years Chautauqua Institution on the Lake, at Chautauqua, N. Y., has been world famous as a summer resort, both for its educational features, which have been the pattern for all the home reading clubs, correspondence schools and the summer schools now connected with every great university, and for its general all round summer life.

Nowhere in the world can so extensive a program of lectures and concerts, dramatic entertainments, conferences of nation wide importance and platform entertainment be obtained, along with the equal of its bathing beaches, the twenty mile lake for boating, the golf course, fast roque and tennis courts, ball ground and a score of other athletic games and outdoor sports.

Not a Commercial Enterprise.

But Chautauqua Institution is not a commercial enterprise, as many suppose. It is incorporated as an educational and philanthropic project. The income is figured on actual cost and is supplemented by endowment funds and yearly donations from generous friends. Its summer schools and reading courses are also furnished at actual low cost figures.

Twenty thousand "friendly folks" make an average population at Chautauqua. They come from all the states of the Union. They come from China and Japan, from South America and from Europe, where Chautauqua, N. Y., has the reputation of an "American Mecca."

Chautauqua Life Is "Different."

One can be as quiet at Chautauqua as one chooses or as busy all day long. The long program of lectures by really great men, the diversity of the musical program and the platform entertainments by world celebrated artists will satisfy the desires of every type of mind. The daily offering of outdoor sports, such as golf and tennis and roque, bathing and boating of all kinds, track events, tramping and riding and driving, give free play for those inclined to the athletic. The work of the summer schools occupies 2,400 adult students and runs the gamut from basketry to music through 200 separate courses under the best available teachers. Those with the religious bent will find many worth while conferences and lecture courses.

America's Greatest Forum.

Chautauquans—and there are millions of them—have a purpose in life. The ideal, which John H. Vincent, the founder, so sturdily cultivated in his people, was the balanced life, a strong body with a strong mind and a spiritual consciousness of life and its purposes which would give direction to each individual.

Nowhere in the world can so many great minds be met with in the same short space of time as at Chautauqua during the huge sixty-day program, which occupies the summer season through July and August. Without exception the greatest statesmen, the best known authors, the wisest educators, the foremost politicians, the most famous travelers and the most active propagandists have all found a place there and a friendly welcome to Chautauqua's platform.

The great amphitheater, which seats 5,300 people comfortably and can accommodate 7,500, has been the scene of many an important address dealing with the greatest issues of the day. Six presidents of the United States have graced this platform and praised the institution as the great world's forum that it is.

The acoustics of this huge outdoor amphitheater are well known to speakers of every nationality. The open sides give perfect ventilation and comfort during even the hottest days of the year. Five years ago a magnificent Massey organ, the gift of the manufacturer and worth at least $30,000, was installed.

To have been a member of this Chautauqua audience is to have enjoyed a tremendous privilege. To have been a speaker on this greatest of the world's public forums is a distinction which thousands covet and but a comparative few enjoy.

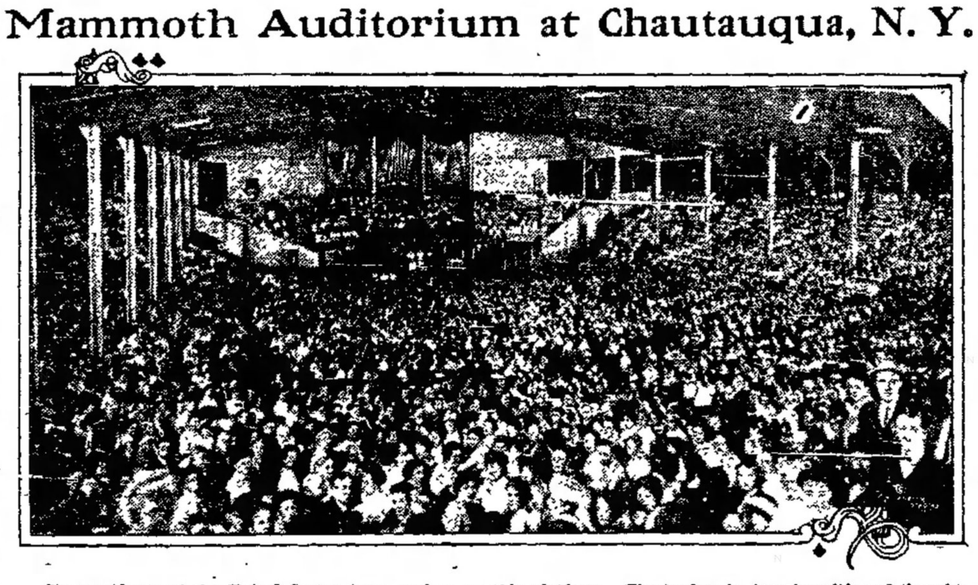
Expensive "Talent."

More money is spent on "talent" for Chautauqua's eight week program than would be suspected by the 50,000 people who get its full benefits for the small gate fee of $8 per season. The budget runs into the tens of thousands. But the very best is thereby obtained—statesmen fresh from their duties at Washington or the various state capitals, authorities on social and professional lines from the big universities, musicians just off tour, preachers whose names are household words and entertainers of the highest grade.

Very often there are forty events or more scheduled daily. And at least 120 lectures and 200 popular concerts are given during the period, so that every type of mind and individual taste may find something of information, education or inspiration to carry home for the coming year.

Chautauqua life brings speakers and audience close together with its air of comfort and informality.

Mammoth Auditorium at Chautauqua, N. Y.



Six presidents of the United States have spoken on this platform. The leaders in American life and thought have here found their most responsive audiences. This auditorium seats 5,300 people comfortably and will accommodate 7,500. Its open air sides afford perfect ventilation and comfort during the hottest days.

BISHOP JOHN H. VINCENT.

The venerable founder of the summer assembly at Chautauqua, N. Y., whose foresight, humanity and energy developed an idea which has molded the national life.

WORLD'S GREATEST PUBLIC FORUM—CHAUTAUQUA, N. Y.

Sixty Day Assembly Will Have Big Speakers and Mammoth Program.

The leaders in American life and thought have always found the Chautauqua platform hospitably open to them, and there have been very few of the nation's great statesmen, authors, educators, travelers and propagandists who have not appeared before Chautauqua assembly at some time during the last forty years.

This coming season a noted and varied array of such talent is offered:

Mary Antin, world famous as a young Jewish author and champion of the immigrant, will lecture. E. J. Ward, Wisconsin's state adviser on civic development, will direct a week's work on "Community Service." Henry Turner Bailey, America's greatest exponent of art in every day life, just returned from his task of awarding prizes at the Panama-Pacific Exposition, will spend the summer at Chautauqua.

Mrs. Percy V. Pennybacker, president of the General Federation of Women's Clubs, will give general addresses and also conduct special exercises for her constituency. Charles Rann Kennedy and his wife, the well known actress, Edith Wynne Matthison will give a series of recitals from his written plays, "The Servant In the House," "The Terrible Meek," etc.

Special addresses will also be given by Thomas Mott Osborne, warden of Sing Sing penitentiary, noted for his advanced prison methods; Hamilton Wright Mabie, literary editor of Outlook Magazine; Harold J. Howland, associate editor of Independent Magazine; Rabbi Stephen S. Wise of New York, Amos P. Wilder, Dr. Katharine B. Davis, New York's commissioner of correction, and Superintendent William M. Davidson of the Pittsburgh public schools.

The Chautauqua Players, under the lead of M. Benedict Papot, "the leading amateur actor in America," will present a series of well known plays, one each week. Music will be represented by the Chautauqua chorus of 500, under Mr. Hallam, and by the famous Russian Symphony Orchestra, with William Wade Hinshaw of the Metropolitan Opera Company and Ernest Hutcheson, noted pianist, as soloists.

The Religious Features.

The religious features of the program will be in the hands of Dean Shailer Mathews, president of the Federal Council of Churches and head of the Chicago Theological School at the University of Chicago. He has just returned from a special mission to Japan in the interests of international peace. Such figures as Dr. Frank W. Gunsaulus, president of Armour Institute; Bishop Charles D. Williams, Protestant Episcopal bishop of Michigan; Bishop John H. Vincent, chancellor of Chautauqua; Bishop Francis J. McConnell of Denver and Dr. Samuel B. McCormick, University of Pittsburgh, will also be on the program for a series of talks.

Special weeks this summer will be devoted to particularly live topics. Justice and the courts will be an open question for some 500 lawyers to wrangle over, under the leadership of Justice William L. Ransom of New York City's city court. George W. Alger will be featured with his series of lectures, based on matter recently published in the World's Work Magazine. And Dr. Katharine Bement Davis, New York city commissioner of correction, will speak on "Prison Reform."

Temperance week will bring a live discussion of the national prohibition campaign. Ex-Governor Malcolm R. Patterson of Tennessee will tell "Why I Changed Front on the Liquor Question," and Hon. J. Denny O'Neil of Pittsburgh will speak on "Prohibition From the Business Man's Point of View." Many other prohibition and temperance speakers will attend, and William Jennings Bryan has indicated his desire to be present.

Week of the Great War.

A week devoted to a study of the "War of Eleven Nations In Europe" will find several speakers of authority who are just back from the front. Dr. Lincoln Wirt, special representative for the World Peace Foundation and the Boston Herald, will return to make his first public report at Chautauqua. Norman Angell, whose books showing the logical fallacy of war upset modern ideas as to its necessity, will expound his widely quoted views. Dr. Herbert Adams Gibbons, special writer for the New York Herald and author of two recent books dealing with "Changes In Europe," will conduct summer classes and lecture on the subject. Director Arthur Bestor will describe Europe's war lords from his recent intimate studies of their personalities, and Sanford Griffith, who has just returned from Belgium, where he served as "special field investigator," will describe the horrors of war and life at the front as he saw it.

Community affairs will be discussed in every possible connection during a week in which sessions will be led by Mr. E. J. Ward, Wisconsin's state adviser on civic improvements and the like. Social centers in the city and public school centers in the country will be particularly featured. Internationalism and Christianity will be the final week, and the theme will be "What Is the Duty of Christianity as a Power In the Present Military Crisis?" Dr. Frank Gunsaulus, Dr. Charles E. Jefferson, Bishop James W. Bashford, Dr. Lemuel C. Barnes, Hon. Amos P. Wilder and Hon. John Lind, who was President Wilson's personal representative in Mexico, will be among the speakers.

Bridal Chamber Silver.

Few places of equal extent in mother earth ever produced as much wealth in ore as the famous "bridal chamber" in the Lake Valley silver mines in southern New Mexico. It yielded over $3,000,000, the silver ore being found twenty feet underground and was taken from a space no larger than a good sized room. One piece of ore weighed 81,000 pounds and returned smelter values of over $82,000. In another nearby shaft fifty feet in depth $110,000 worth of ore of the same character was hoisted with a hand windlass in eight hours.—Argonaut.

First to Strike Oil.

The first man to "strike oil" in the United States was E. L. Drake, a conductor on the New Haven railroad. Employed at Oil Creek, Pa., to drill a well for oil, he accomplished his task on Aug. 27, 1859, and his well went down into history as the first ever drilled for oil in this country.—New York American.

Reformed.

"Pa, Jimmy Green, the toughest fighter in our gang, has reformed. He says it's wrong to fight."

"Do you believe him?"

"I would but for one thing."

"What's that?"

"He never talked that way until he broke his arm."—Detroit Free Press.

What Is the Best Remedy For Constipation?

DOUBLY PROVEN

Monessen Readers Can No Longer Doubt the Evidence

This Monessen citizen testified long ago.

Told of quick relief—of undoubted benefit.

The facts are now confirmed.

Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.

Mrs. B. Wadsworth, 270 Donner avenue, Monessen, says: "I was in poor health for some time and didn't know what was the trouble. I had severe backaches and was bothered by chills. Spots often floated before my eyes. I finally procured a box of Doan's Kidney Pills at the Hirsch Drug Co. and began taking them. I improved from the first and was soon cured." (Statement given Oct. 2, 1907.)

A SECOND STATEMENT

On January 16, 1914, Mrs. Wadsworth said: "I use Doan's Kidney Pills once in a while and a few doses always relieve me."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Wadsworth had. Foster-Milburn Co., Buffalo, N. Y.

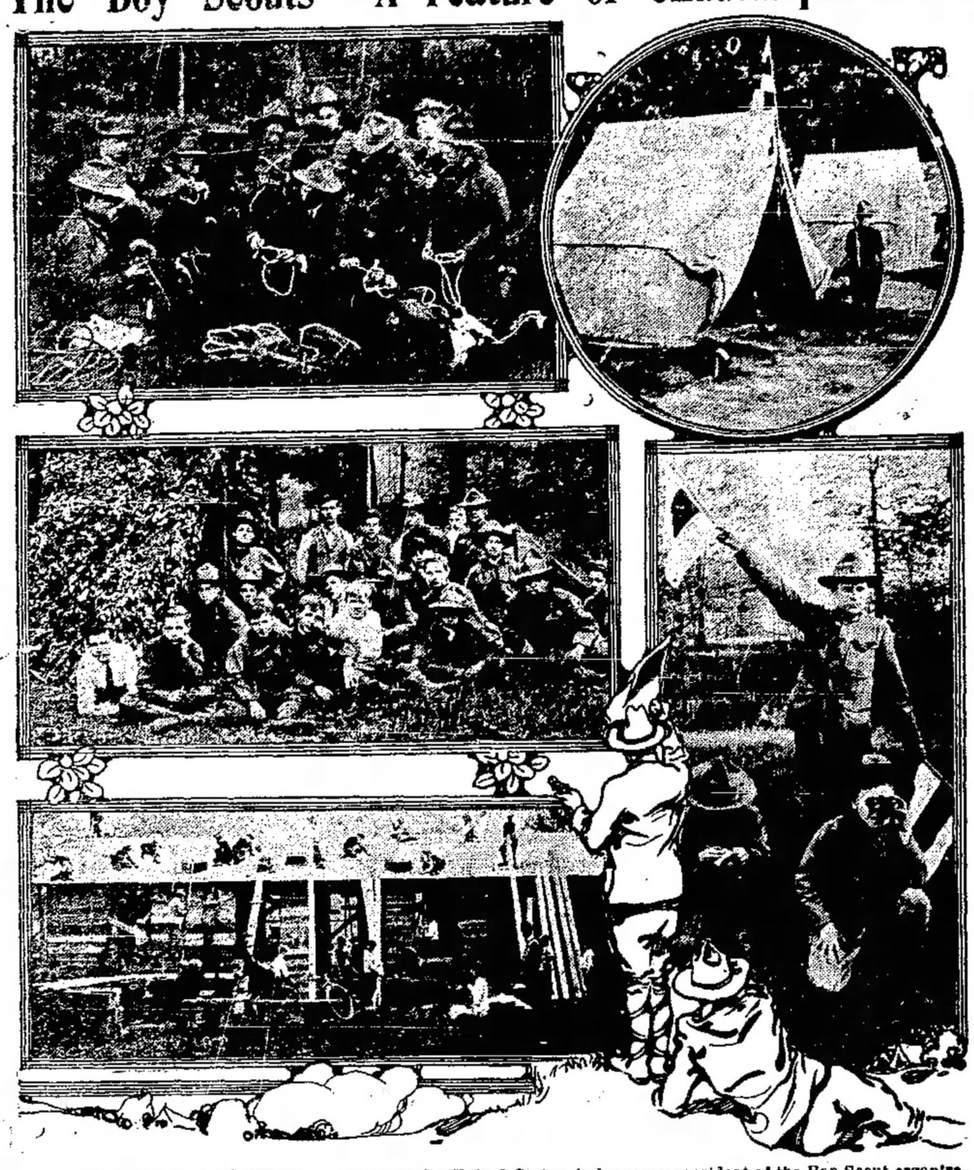
NEWSPAPERARCHIVE®

The Boy Scouts—A Feature of Chautauqua Week



HON. WOODROW WILSON, president of the United States, is honorary president of the Boy Scout organization of America. This will be of interest here in view of the fact that Boy Scout drills and scout craft are to be a feature of our forthcoming Chautauqua.

To those unacquainted with the Boy Scout movement a few facts will be of interest. The Boy Scout order originated with Lieutenant General Baden-Powell of England and today has more than 500,000 members in England, 750,000 in America and 25,000 in Australia. There are more than 5,000 members of the order in Chicago alone, representing Jewish, Catholic and Protestant churches, social settlements, playgrounds and Y. M. C. A.'s. The object of the movement is character building for boys between the ages of twelve and eighteen. It is an effort to train them in self reliance, manhood, good citizenship and scout craft. Scout craft includes instruction in first aid to the injured, life saving, signaling, nature study, camp craft, woodcraft, chivalry and patriotism.

Each boy must take the scout oath, the form of which is "I will do my best; to do my duty to God and my country and to obey the scout law; to help other people at all times; to keep myself physically strong, mentally awake and morally straight."

Water Barons on the Run

(continued from first page)

real estate cost the company $16,961.17. Original cost of the seven plants representing the holdings of what is in reality the Westmoreland Water company was fixed at $347,591.87.

"The evidence of Mr. Schaff developed that the Delaware company which was nothing more than the Westmoreland Water company of Unity township, made a profit of $102,400, not including the $600,000 worth of common stock it received for building the plants.

"The Irwin plant was built by the American Pipe Manufacturing company. According to the evidence the contract price was $55,000 in the bonds of the company and $20,925 in cash.

Attorney Gaither also brought out during his cross examination of Mr. Schaff that the Western Supply company also received $62,500 from the Mountain Water company for its Indian Creek rights. The expert stated that there was no record as to who received this money."

Candinates Announce

Candidates for the several county offices are rapidly coming to the front and Monessen voters will soon have a full list from which to select. This paper is the only Republican daily in this section of Westmoreland county. It has started an official roster of candidates, men who authorize us to insert their names in the column. None but those who pay the regular fee and are regularly authorized candidates will appear. We ask the readers of the paper to look over the names carefully, make up their minds who is the best fitted for the several offices and who most deserve the support of the voters, then cast the ballot conscientiously. The primaries are only about two months off and from now on candidates will be busy. Watch these columns for the authorized list.

Local Notes

—Mr. and Mrs. C. W. Greer are Greensburg visitors today.

—Miss Clara Hartley of Webster, was shopping here today.

—Frank Venenri of Reed avenue, was a business caller in the city today.

—Coming to the Olympic Friday, July 23—The only and most wonderful achievement a human being ever accomplished—Williamson's Sub-marine Expedition Under the Sea." Miles of adventure and mystery on the ocean's floor. 1t

—Lester Palmer of New Salem, will act as secretary for Steen & Dils, real estate agents during the vacation period of Miss Grace Reeder. Miss Reeder will leave next week for a three weeks' sojourn at Atlantic City.

—The lawn festival which was to be held this evening on the vacant lot next to Johnson's grocery at Ninth and Knox by the Ladies Aid of the English Lutheran church has been postponed until tomorrow evening. If rain should interfere, the festival will be postponed indefinitely.

MORE WATER

Water in Monessen is getting to be about the same price as milk. It doesn't pay to water the milk for profit.

Rumor has it that a baby was born on Linden avenue last week and the water company instantly shot the rate up.

If the gas company puts in a meter, the gas company pays for it; if the Electric light company puts in a meter, the light company pays for it, but if the water company puts in a meter, the consumer pays for it. Quite a difference in which company you do business with. Listen, gas is discovered in certain localities and piped to the cities at an enormous cost to the corporations, the light company manufactures its light, having to maintain powerful plants at great cost. The water company gets its material out of the river and sells it at a greater price than either of the other companies. Something wrong gentlemen, something wrong.

If you don't pay your water bill by the 15th, today, your water will be shut off and one dollar will be charged for turning it back on also 5 per cent. will be added to the bill. Say Mr. Consumer, do you have any come back like that? Not much.

If you are one of the fellows caught in the revised schedule of water rates, possibly somebody has been visiting you and you are placed on the list of houses with two families. There must be some reason for a raise as the old schedule is still in force.

$12.00 for a meter. How much does it cost the company? Do you know? No you don't and there is no way of finding out. Keep mum about the price and say nothing.

A grand mother of a little boy left town last night and the little fellow cried and took on awful. People inquired as to the cause of the little fellow's grief and it was found that the old lady left because the water rates were raised and the family couldn't afford to keep grand mother any longer. The slightest provocation will shoot the water rents up. It must certainly be the war.

NOTICE ODD FELLOWS

All members of the I. O. O. F., their wives and families are invited to join the excursion party to Kennywood park on Friday, July 16th to participate in the annual outing.

A good program of sports and other entertainment has been provided by the committee on arrangements and everybody is assured a good time.

The train will leave Charleroi station over the P. R. R. at 8:20 a. m., returning in the evening. Tickets for adults for the round trip will be sold at 85 cents, and for half fare 43 cents. All are invited.

24-3t fp The Committee.
